

Canteen

Canteen is undoubtedly such an important part of any college campus that it is not at all an exaggeration to say that it is as significant as the classrooms or the auditorium. One can rather say that a canteen is more happening and lively than any other part of a college. Canteens are the place where friendships start and hostilities end. Time spent at the canteen gives rise to ideas for assignments, projects, and planning for parties and vacations. There is no way such an important place can be taken lightly and it is for the same reason that LBS Govt College Saraswati Nagar has ensured that standards of our canteen stays upto the mark.

The college has provided a canteen facility to the students as well as teaching and non-teaching staff of the college; it is capable of catering the demands of the students and can accommodate around 35 people at a time. It has a spacious and properly maintained room as well as kitchen. Generally, the college provides it to any individual on contract basis after proper official formalities. The College canteen also caters to the functions organized in the college programmes like seminars, conferences , annual function , sports meet and workshops. Canteen staff takes care to provide the students and staff a nutritious and hygienic food at our campus canteens. A variety of food and snack items includes Indian meals, Chinese foods, fresh juices, etc. Our administration checks from time to time that level of food and hygiene in canteen remains high.
