Session 2019-20

Tree Plantation Drive (24.07.19)

Eco Club Unit of the Lal Bahadur Shastri Govt. PG College, Saraswatinagar, organized a tree plantation drive in the college premises on 24th July 2019. This event started with the plantation of tree saplings by Dr Poonam Mehta (Associate Professor), Dr Lok Raj Sharma (NSS Program Officer) and Convener (Dr Punam Chauhan) and Members (Prof Jitender Kumar and Dr Shallu Dogra) of Eco Club Unit of the college around the girl's hostel. Around 60 saplings were planted in and around the college campus. Students of Eco Club were excited and showed their vigor in tree plantation. After planting the trees the students were assigned with the duties to look after the plants. They were also sensitized about the various environmental issues, sustainable uses of resources and ecological balance. Then refreshment was distributed among the students and teachers. The drive was quiet motivating and ended successfully.

❖ Development of Herbal Garden

Date: 27.07.19

Eco Club organized a drive to develop a Herbal Garden in the College Premises with reference to HIMCOSTE Letter Number STL(F7)10/12 Plan Project E-E-026. To develop herbal garden a site near Principal's Residence was chosen. Dr P.P. Chauhan, Principal of the college came to the site and told students about the importance of herbal garden as he belongs to the Botany Dept. He also encouraged students to develop this garden and motivated them by telling the uses of various medicinal plants. The site which was selected for this purpose was unused and covered with bushes and stones. On 27.07.19 students and teachers of Eco Club Unit, cleared the site by cutting the bushes and throwing the pebbles and stones. It was very tedious for the students to clear the site in one day. After clearing the half of site for about two hours, refreshment was distributed among the students. Students seemed to be delighted and motivated.

Date: 03.08.19

In continuation of development of a Herbal Garden in the College Premises with reference to HIMCOSTE Letter Number STL(F7)10/12 Plan Project E-E-026 students of Eco Club were gathered on 03.08.19. As the site was not cleared completely earlier, so the students along with the teachers of Eco Club Unit started cleaning the site again. Students were curious in doing their task. All the students were excitedly pulling the bushes, throwing the stones and clearing the site. At last they were successful in doing their assigned duty well. After the completion of the task the refreshment was distributed among the students.

A laborer was hired then to level the site as it was difficult for the students to level the site without proper tools and implements.

Date: 02.11.19

To continue with the previous task of developing the Herbal Garden in the College Premises with reference to HIMCOSTE Letter Number STL(F7)10/12 Plan Project E-E-026 again the students and teachers of the Eco Club Unit were gathered at the site. Students and teachers were asked to bring some medicinal plants/ ornamental plants one day before, so on 02.11.19 these plants were planted by the students. Students were grouped in various groups. Each plant was allotted to a particular group to plant and look after that plant in future. Refreshment was also distributed among the students.

❖ Cleanliness Drive in the Campus (04.12.2019)

It was a need of hour and yes that's why the Eco Club unit of the college takes this initiative of cleanliness every year to spread awareness among the students and teachers even the surrounding people to think, initiate and implement this. It should be our duty to take one step ahead against the Swachhta Abhiyan and make our region, our state, our country a disease free, pollution free and completely developed country. With this campaign, this year also the members of Eco Club took a pledge to clean our college campus and surrounding areas. We started at 10:30 am with the teachers and students from NCC. We took brooms and garbage bags in our hands to clean and pick up the plastics found in the campus and surrounding areas. We cleaned every nook and corner of the college including corridors, ground, parking area, canteen area etc. After doing the same for about four hours, we all gathered in the college hall. There refreshment was distributed among the students and the teachers. Eco Club members and some of the students volunteered to give speech on cleanliness campaign and harmful effects of plastics. Everyone was felt so contented in beautifying their own campus. We all took oath not to use plastics, disposables, and to keep our surroundings clean and also motivate others to do the same. The purpose of this campaign was found fruitful.

❖ National Science Day (28.02.2020)

India celebrates National Science Day on February 28 every year to commemorate the discovery of the Raman Effect. Sir CV Raman discovered the effect in 1928 and was awarded the Nobel Prize in Physics in 1930. National Science Day is celebrated across schools and other educational institutes to spread the message of the importance of science in daily life. On this day, light is shed on efforts and achievements in the field of science and dialogue is held on implementing new technologies. In 1986, the National Council for Science & Technology Communication (NCSTC) asked the government of India to mark February 28 as National Science Day. National Science Day was first celebrated on February 28, 1987. The NCSTC also founded the National Science Popularization awards to recognize the outstanding efforts in the area of science. For 2020, the theme is 'Women In Science', putting a special focus on contributions and efforts by women scientists.

Science society of our college celebrated 'National Science Day' on 28th Feb 2020. The event started with the lamp lightening by the chief guest, Dr P.P. Chauhan, Principal, Govt. P.G. College Saraswati Nagar. All the staff members were also invited to witness the program. Then the gathering was briefed with the objectives and purposes of the celebrating National Science Day. Session continued with the various science activities by the students of all the three classes. Students presented posters, models based on science, power point presentations, declamation etc. Students were very excited and worked very hard throughout the event. They presented themselves very well and confidently. As the presentations of the students were over, prizes were distributed to the winners by the chief guest. The chief guest then delivered a motivational and inspirational speech to our students. He emphasized that hard work is the only key to achieve success in the life. He explained how science and technology is useful in day to day life and how it is making life easier. In his presidential remark he appreciated the efforts of the Eco Club students for making this event a grand success. In the meanwhile, refreshment was also distributed to the students and the teachers. The program ended with contentment with the vote of thanks.
