Report on Educational Tour of Department of Commerce 2025

The Department of Commerce organized an educational tour to **Dharamshala, Dalhousie, and Khajjiar** from **18th November 2025 to 21st November 2025** with the aim of enriching students' academic understanding through experiential learning and practical exposure beyond the classroom. A total of **27 students** participated in the tour under the able guidance and supervision of **Dr. Sandeep Kumar, Professor of Commerce**, and **Dr. Sanjeev Kumar, Professor of Political Science**, whose academic insights and leadership ensured the smooth

conduct of the tour. The educational tour was carefully planned to provide students with firsthand exposure to the economic, administrative, cultural, and tourism-related activities of prominent hill stations in Himachal Pradesh.

During the visit to **Dharamshala**, students gained

valuable knowledge about the tourism-based economy, public administration, and sustainable development practices adopted in ecologically sensitive regions, along with an understanding of how governmental and non-governmental institutions contribute to regional development. The visit to **Dalhousie** offered students practical insights into hospitality management, service-sector operations, local trade practices, and the role of tourism in generating employment and promoting economic growth in hill areas, thereby strengthening their understanding of theoretical concepts studied in commerce and management.

At **Khajjiar**, often referred to as the “Mini Switzerland of India,” students were introduced to the concept of eco-tourism, environmental conservation, and sustainable business practices, emphasizing the balance between economic development and ecological preservation. Throughout the tour, students actively engaged in observation, discussion, and interaction, which enhanced their analytical thinking, communication skills, and ability to relate academic knowledge with real-life situations. The tour also played a significant role in fostering discipline,

teamwork, leadership qualities, social responsibility, and mutual cooperation among students, contributing to their overall personality development.

Cultural exposure and interaction with local communities further enriched the learning experience

by helping students appreciate regional traditions, heritage, and socio-economic diversity. The educational tour successfully achieved its objectives by bridging the gap between theoretical learning and practical understanding, making it a highly informative, motivating, and memorable experience for the students. The Department of Commerce expresses its sincere gratitude to the college administration, faculty members, and all concerned authorities for their support and cooperation in organizing and successfully completing this academic tour.
